## Consumer Corner: Visit Our Showroom at The Carriages at Lower Gwynedd

You may have heard the news that we are in the process of building luxury carriage homes across the street from our location in Spring House. What you may not know is that we also opened a showroom there which serves double duty as a design center for Harth Builders.

The new space expands our ability to gather and present materials for our clients to choose for their projects. From cabinetry, to countertops, hardware, lighting, tile, flooring, and more, we can now stage the various products in one space so our clients can see how well they coordinate and make adjustments as necessary.

# Historical Renovation National CotY

CotY<sup>2017</sup>  
Awards

Harth Builders has earned three Contractor of the Year (CotY) Awards, including the prestigious 2017 National

CotY Award, in the category of Commercial Exterior Renovation from the National Association of the Remodeling Industry (NARI). Winners of the National CotY Awards were announced recently at NARI's Evening of Excellence event held in Scottsdale, Arizona. Harth Builders was the sole winner in this category. The award winning project

featured here was a renovation we completed in 2016 on the Dixon Meadow House—a historic farmhouse owned by the Whitmarsh Foundation.

Located on the Angus Tract of Erdenheim Farm in Whitmarsh Township, the farmhouse was originally constructed in the late 1850's. Although it had fallen into a state of disrepair, the building remained structurally sound and featured exquisite architectural detail from that period.

Lead Carpenter

**Mike Topper**  
Lead Carpenter

**Bill Versak**  
Project Manager

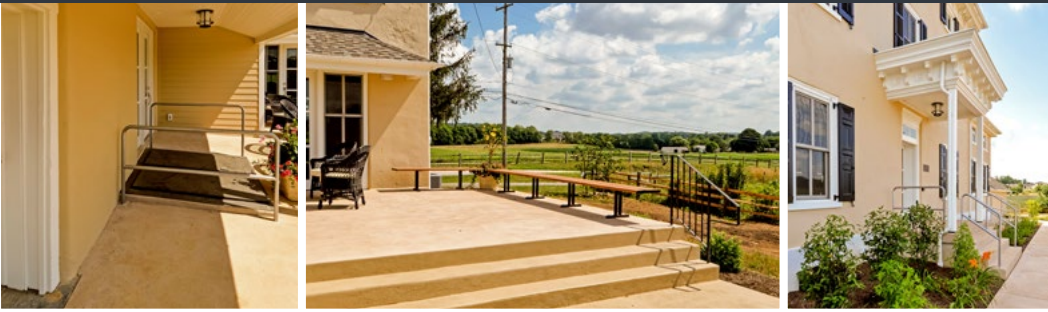

**Katie Petruzzo**  
Draftsperson/Designer  
Marketing & Social  
Media Officer

### Birth Announcements

Our heartfelt congratulations go out to Chris and Erica Lux on the arrival of their daughter Margaux, and to Mike and Joi Laws on the arrival of their daughter Maia. We wish both families and their newborns many years of good health, love, and happiness.

After conducting a successful capital campaign to raise the necessary funds to remodel, the Whitemarsh Foundation reached out to us to renovate the property.

According to Gregory Harth, President of Harth Builders, playing a role in the restoration of this building was an honor. "This project presented some unique design challenges. The historical character of the building needed to be preserved, yet significant changes had to be made to modernize and bring the building up to code. It was an honor and a privilege to be a part of restoring the grandeur, as well as the function, to this building."

Since its renovation, the Dixon Meadow House has become a living laboratory and learning center for meadow management, the study of flora, fauna, and birding. Educational programs are held year-round in conjunction with community partners including the Morris Arboretum, William Jeanes Memorial Library, Wissahickon Watershed and Whitemarsh Township.

*More information on the Dixon Meadow House is available on the Whitemarsh Foundation website at: <http://www.whitemarshfoundation.org/dixon-meadow-house/>.*

### A Note From Greg:

Harth Builders recently conducted a Team Building & Leadership Workshop with Paul Winans from Remodelers Advantage. The two-day workshop took place at the Philadelphia Cricket Club on May 9 and 10. The purpose of the 2-day retreat was to plot a strategic course for growth for our company.
